Jay C Ansin

Full-Stack Developer

" I focus on using React and Vite/Next.js to build responsive, user-centric front-end solutions. My goal is to create web interfaces that are functional and visually appealing.

My approach to development emphasizes collaboration and ongoing learning, as shown by my pursuit of additional certifications in web development. "

Strong work ethic | Punctual | Caring | Loyal

Communicating | Team oriented

Experience

Present Atlanta, GA

Front-End Developer (Freelance)
NewAge Consultancy LLC

• Leading the development of NewAGE Consultancy's new website, ensuring a responsive and user-friendly interface.
• Translating design concepts into dynamic web components using React and Next.js.
• Collaborating closely with management to implement a cohesive and visually appealing experience.
• Conducting code reviews and implementing best practices to maintain high code quality.

Activities

Volunteer
Private Non-Profit

Volunteered with a non-profit organization dedicated to helping stray animals in 2021 to 2023.
This experience enhanced my empathy and commitment to animal welfare. Through these activities, I enhanced my communication skills, and gained a deeper appreciation for cultural diversity.

Volunteer/Participant
Destination Imagination

Participated in Destination Imagination, a project-based program fostering innovative problem-solving skills through STEAM.
By participating in challenging team projects, I honed my critical thinking, creativity, and collaboration abilities, preparing me for real-world problem-solving scenarios.

Volunteer/Participant
Caretakers of the Environment

Actively participated in volunteer initiatives through the non-profit organization Caretakers of the Environment.
Collaborated on international team projects that promoted environmental awareness and problem-solving skills.
