👤 ENTRY-LEVEL WEB DEVELOPER

Graduated from Computer Programming and Analysis, highly interested in web development. Strong knowledge of object-oriented programming and application development tools as well as experience in various programming languages and systems.
Team player and multitasker – determined to exceed expectations.
Striving on self-improvement and currently taking online classes.

🎓 EDUCATION

Computer Programming & Analysis
Seneca College, CA, Toronto

05/2016 – 05/2019
GPA: 3.4/4 (3 year program)

⚙️ PROJECTS

My Portfolio
https://pronoia9.github.io/portfolio/

Made an online portfolio using React. Features are complete, however, need to replace the placeholder information/text.
*Currently working on an E-Commerce website, also using React, also visible on my GitHub account.*

🌐 ACTIVITIES

Volunteered and collaborated in multiple team-based projects for non-profit volunteer-led organizations like Caretakers of the Environment (2011, Debrecen Hungary) and Destination Imagination (2012, Istanbul).
Traveled abroad, promoted environment awareness, build new friendships with people from different cultural backgrounds, and participated in problem solving challenges.
Over 2 years of international management experience in a fast-paced environment, within a team-based setting.
Expert knowledge of Microsoft software, especially Excel, constantly evolving skills for personal use.
